## Rules and Regulations:

1. A team must contain 4 members.
2. The teams must only consist of students of IIITV, and from batch UG-2020.
3. No cross-campus teams will be allowed i.e., students of IIITV (Gandhinagar Campus) will not be allowed to form teams with students of IIITV ICD(Diu Campus).
4. No submissions will be accepted after the deadline of 48 hours.
5. The demonstration video must also be submitted before the deadline of 48 hours
6. Reuse of code/templates is allowed, but a link to the source code has to be provided with the submission. In case you are found not providing proper reference, it will lead to your disqualification.
7. The project must follow one of the given themes.
8. The teams may use any communication channel they wish to, to communicate with their members
9. No team can collaborate with any other team, if found, it will lead to disqualification.
10. Each time will have a 1-hour time limit for talking to mentors which they have to use judiciously, we strictly condemn wasting the time of our mentors.
11. The teams can approach the mentors only 2 times within the 48-hour hack time.
12. Every team must submit at least one commit every 3 hours on GitHub, during the "Hack" time.
13. If the code is not ready, a README.md must be committed, with the idea and the README.md must be updated every 3 hours with the current status until the coding phase for your team starts.
14. Each team must present their ideas formally in the form of a video to the judges after the 48-hour hack time, for Round 1.
15. The demonstration video must not exceed 10 minutes.
16. A total of 8 teams (5 from Gandhinagar campus & 3 from Diu campus) will be shortlisted for Round 2.
17. All shortlisted teams must present their hack to the judges on a video conference call in Round 2.

18. Teams must stop hacking once the time is up. However, teams are allowed to debug and make small fixes to their programs after time is up. e.g., If during demonstrating your hack, you find a bug that breaks your application and the fix is only a few lines of code, it's okay to fix that. This code needs to be pushed to the repository.
19. If any team is found to have plagiarized their hack, the team shall be disqualified immediately & will not be allowed to participate in any technical event of the institute in the academic The year 2021-22.
20. If any team is found to have made major changes to their working product after submission, then the team will be disqualified immediately.
21. Projects containing any kind of harassment, abuse, or profanity will be disqualified immediately.
22. Any team who fails to submit their work product will be disqualified immediately.
23. The judges are permitted to call any team on a live video conference call and ask any questions to the teams that they deem fit.
24. All decisions made by the judges and the organizers are final and binding.
